LC: Can I understand the importance of the River Nile, and what happened during each season on the Nile?

Draw images on the wheel to show what happened in each season

Akhet - July – Flood season. Land around the Nile flooded meaning farmers could not work on the land so they worked for the pharaoh, laboring on the pyramids ad temples, improving the irrigation canals beside the river.

Peret – Nile recedes but water still high enough to fill the canals. Perfect for planting **crops.**

Shemu – Harvest season – Crops in the lower Nile harvested and sent to market.
