

## Cashless payment system - Parentpay

Did you know you can make convenient and safe cashless payments to school using our on-line payment system?

Use of the secure Parentpay system is **free** to parents and gives you a more convenient and flexible way to pay school online. By making cashless payments you know that your money has reached the school safely without the need for you to visit the school office.

It can be accessed on any pc, lap-top or tablet. You can view your account statement and payment history, check when payments need to be made and set alerts to tell you when to pay school online. This is particularly useful for dinner money payments. You can even set a text alert to let you know when it is time to make the next payment.

If you have more than one child in school you only need a single log-in where you can view all items making it even easier for you to keep track of payments. Some of the local secondary schools use Parentpay and the single log-in allows access to these as well. Indeed, secondary schools often insist that parents use a cashless method of payment. Why wait to enjoy the benefits of this service when you can start now?

If you have not received your user name and password, or forgotten/lost them, please contact the school office for assistance. You can be up and running in no time. For further information visit [www.parentpay.com](http://www.parentpay.com)

Parentpay is our preferred method of payment as this cashless system helps us to be more efficient. Class teachers no longer need to spend time collecting payments from children and administration time in the school office is significantly reduced.

Your support is much appreciated and if you should need any assistance please do not hesitate to contact the school office staff who will be happy to help.
