## The Dreadful menace

I am the dreadful menace.

The wind blowing your dreams away. ✓

The dagger piercing into your soul.

The cold sting that numbs your body. ✓

I am the mist that clouds your thoughts.

The carundrum that ruins your ambition. ✓

But I will let you have your day.

The rain that turns your beatic grin into a frown.

The horrible sky that turns your day depressing. ✓

I am the evil menace that haunts your dreams.

The mountain that ruins your ambition.

But I will let you have your day. ✓

Just maybe
