Fossil Record

Select a living thing of your choice (it could be a plant or an animal) and research its fossil record. Below add or draw a picture of two of its ancestors fossils that have been found and then write a paragraph describing how the living thing has evolved.

Fossil (Ancestor)	Fossil (Ancestor – lived in between the earliest and the modern living thing)	Living Relative
Name:	Name:	Name:

Fossil Record

Select a living thing of your choice (it could be a plant or an animal) and research its fossil record. Find as many fossils ancestors for it as you can and either add or draw a picture to represent them and the modern day living thing. Write the names of the living things underneath each one. Write a paragraph describing how the living thing has evolved.
