LC: Can I understand what contact and non-contact forces are?

1) Name two types of non-contact forces?

2) Fill in the missing words.

A _____ means to pull together.

R _____ means to push away from each other.

3) How is a thrust force created?

4) Watch the investigations in the video and complete the following table.

<u>Type of Force</u>	<u>Contact or non-contact</u>	<u>Draw it</u> What happened in the investigation. What item was used?
Weight		
Air Resistance		
Friction		
Magnetic		
Upthrust		
Water resistance		
Thrust
