

Good morning Year 1!

Please try and read for 15 minutes each day and record this in your Green Reading Record book. You can choose what you would like to read. Perhaps you still have some of the books from school to read in your book bag or have some books of your own at home. Other options are reading an article online or an online book.

I have also set up a couple of class accounts. Once you've logged in for the first time on your device remember to save your login details so that you won't need to keep entering every time. See below for information.

Oxford Owl

Visit www.oxfordowl.co.uk and click the 'login' button. Make sure you select 'students', then enter the class username and password. Once logged in, you will be able to access eBooks and activities. Choose a book from the same book band colour as the books you have from school.

Username: year1ernest

Password: smile21

Getepic

Go to www.getepic.com/students

Enter class code: rdb0846

Enter as a guest.

Unfortunately, this is an American site. It is only available during school hours. However, it does have LOTS and LOTS of books and videos to choose from. Don't worry about the reading level. Use the search box at the top to look for a book of your choice e.g. mystery, poems or sport etc and then filter the books using the 'age' option.

There are several options such as normal books and 'read to me' books. If you can't read a word just click on it and it will be read to you.

At the end of some of the books there are quizzes. Maybe you'd like to let us know your score.

We are going to choose a Teacher recommended book for you to find next week but in the meantime if you've found a good one let us know your recommendation too!

Happy reading!
