

Pancake Cafe Addition

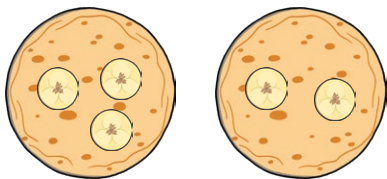

Can you help me work out how many toppings I need altogether for each order of pancakes? Count the toppings and write a number sentence to work out the answer.

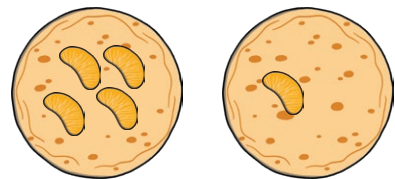

$$\square + \square = \square$$

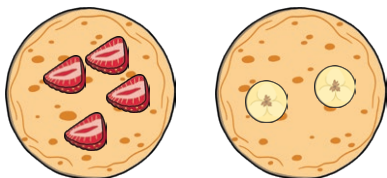

$$\square + \square = \square$$

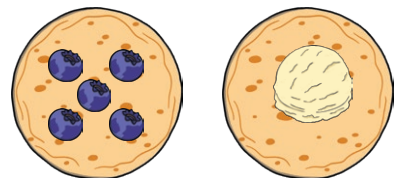

$$\square + \square = \square$$

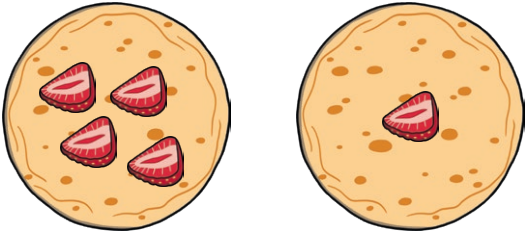

$$\square + \square = \square$$

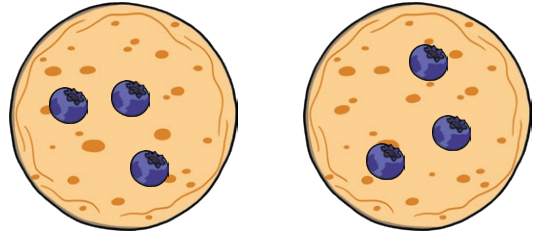

$$\square + \square = \square$$

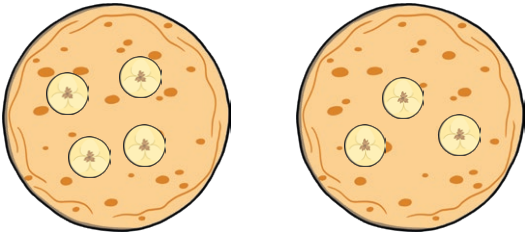

$$\square + \square = \square$$

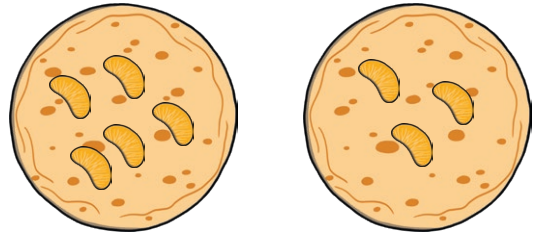

$$\square + \square = \square$$

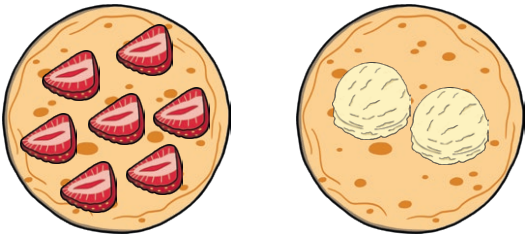

$$\square + \square = \square$$

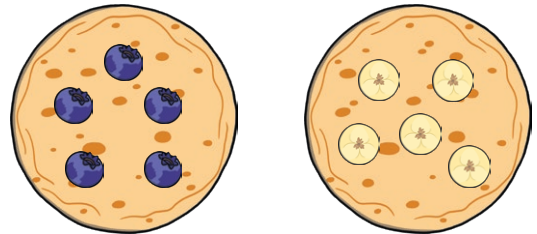

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$
