

RE Lesson Information – Thursday 4th March

LC: What qualities and attributes are needed to be able to change people's lives?

LC: What kind of world do you want to live in and what steps can you take to make it that way?

1) Look at the images below which show how some church leaders and members go beyond their daily/weekly routines to show love and support for people who others were not looking after. They want to help people who they felt were being wronged. People beyond their local church community. They believed they could bring about change.

What qualities do you think these church leaders and members have?

Think back to Andrew and Peter in 'The First Disciples story' - Matthew 4:18-22.

Did they have these qualities at first? Perhaps they would have developed these qualities.

2) Make a Difference Task: Complete the 'Wanted' poster

What skills and qualities do you have which could changes people's lives?

Draw a picture of yourself in the box and then list these qualities below the picture.

Are you kind, compassionate, generous, helpful, inventive?

Can you teach others how to read, play a game or cook?

3) Reflect back on our unit and how we have been thinking of how Jesus wanted the world to be?

Look at worksheet with the picture of the world. On one half, draw and describe what the world is like now. What problems are there? Then on the other half, draw and describe what you want the world to be like. Think back to our lesson on the things we can and can't change.

4) On the worksheet, describe three things you could do to make the world as Jesus wanted it to be.
