

Reception Class Spring Newsletter

Welcome back and happy new year to you all. Thank you for all your cards, gifts and good wishes for Christmas, we hope you had a fabulous time with your precious little ones. Our primary aim this term continues to be to ensure that every child feels happy, safe and secure at St Mary's.

Our Big Question this term asks “What happened Once Upon a Time and what has changed?” A key focus will be to develop children’s vocabulary and understanding around a variety of scientific concepts answering questions such as:

- What happens to ice?
 - What can you see?
 - Can you make a shadow?
 - What sounds can you make?
 - Which objects float?
 - Which objects are magnetic?

We will also find out about the famous scientist – Archimedes.

In Literacy we will be practicing retelling traditional stories, writing recipes for Daddy Bear’s cookbook, writing letters and invitations. We will learn to include finger spaces, full stops and capital letters correctly in our writing. Please keep reading the e-books and the sharing books each week and record in the green reading record. We are working really hard with our phonics and reading in school. Please help your child to blend sounds together to further develop their fluency. The more the children practice their reading now the greater the progress in all aspects of their learning this year and beyond. Any questions please come and ask me anytime.

We will now complete a spelling test each Friday. Please see additional sheet for further details.

In Maths we will be practicing numbers up to 5, finding one less and comparing groups. We will also be comparing mass – heavier and lighter. Measuring capacity – full and empty. We will compare height and length – taller and shorter, longer and shorter. Measure time and learn the days of the week. We will then move onto numbers 6,7, 8 and combining two groups of numbers together.

In RE we will be finding out about who is special in our daily lives. We will be inviting visitors from the: police, priest, paramedic, nurse and our site manager to tell us more about their jobs and how they help people. If you think you can help us with any of these or other roles, please let me know. We will also be listening to stories of Jesus and the people he helped and the miracles he performed. We also look at traditions from other cultures and in particular the Chinese New Year to find out how this is celebrated.

This term our PE days are Monday and Thursday Please ensure children have their PE kits in school throughout the half term

In computing we will practice writing our name using a keyboard on different devices.

Finally I would like to thank you for all your continued support in these difficult times. If you ever have any worries or concerns (no matter how big or small) please do not hesitate to come and ask.

We look forward to continuing to excite and engage the children in their learning and enjoy their first year at St. Mary's.

Miss Zylko, Mrs Hill and Miss Mellor
